## HSE Statistics Report July 22

August

Training Hrs 
TBT 
LTI 
SOS 
Stop Work Authority

Spetco July 2022 Winners			at
Awards	Name	Remarks	
Best Drivers	Salifu Mumuni - 3085	WT	ag
	Esam Saad - 2890	SRP	E
	Ranjith Singh - 2551	GSF	1
	Sathish Kumar - 2039	JPF3 WR	2
	Mohammed Ahmed- 2117	WT	3
Best SOS	Sultan Hameed - 3066	SRP	4
	Jahir Anwar - 2930	GSF	N
	Sree Kattlk - 3142	Fabshop	
	Arun Gopinath - 2744	JPF3 WR	1.
Ans of Month	Yasser Qassem - 1321	Manage- ment	2.

### **Environment – Climate Change**

**Climate change** includes both **global warming** and its impacts on Earth's weather patterns. They are caused by the emission of greenhouse gases, mostly carbon dioxide  $(CO_2)$ , Nitrogen Oxide (NOX) and methane. Greenhouse gases are transparent to sunlight, allowing it to heat the Earth's surface. When the Earth emits that heat as infrared radiation the gases absorb it, trapping the heat near the Earth's surface and causing global warming.

#### What causes Climate Change:

Burning of fossil fuels – coal and gas – which has increased the concentration of greenhouse gases – such as carbon dioxide – in our atmosphere. This, coupled with other activities like clearing land for agriculture, is causing the average temperature of our planet to increase.

#### Effects of Climate Change:

- .. Hotter Temperature
- Severe Storms
- . Changing weather patterns
- . Increased Drought

#### What can we do to stop Global Warning resulting in Climate Change:

- Talk about it: The word of mouth is the best way to spread awareness on climate changes and global warming
- Walk more or take public transport: Using public transport will reduce the consumption of fossil fuels .
- 3. Eat more vegetables: Meat and diary products use more resources to produce than vegetables resulting in higher greenhouse gases
- 4. Avoid Food Wastage: Food results in increased amount of methane production in landfills .
- 5. Practice 3R's: Reduce, Reuse and Recycle let this be your mantra.
- 6. Reduce wastage of energy : Switch off lights or devices that run on electricity or fuel when not in use.
- 7. Reduce waste: Opt for less or biodegradable packaged products.
