

HSE Statistics Report Sep 2026

SPETCO Sep 2026 HSE Winners

Awards	Name	Remarks
Best Drivers	Hasabelrasoul – 3236	LOGISTICS
	Jaffar Ahmed - 1770	SRP
	Murtaza Husain - 3285	WT
	Qinhaf Ali– 2185	GSF
	Mohammad. B -1828	SLICKLINE
Best SOS	Ajesh Kumar - 3955	EPF-50
Best SWA	Jayan. N – 3988	JPF-4-U
	Baskan. K – 4008	JPF-4
Answer of the Month	Mohamed Irshad - 3992	KGOC

World Mental Health Day

Lived Experiences heard: Real Voices, Real Change.

World Mental Health Day is an opportunity to meaningfully engage with people with lived experience (PWLE) of mental health conditions and to recognize their knowledge as a vital form of expertise. This year's campaign calls for their voices to shape the policies, services and decisions that affect their lives.

Chemical Handling Awareness

What is a Chemical

A Chemical is any substance with a defined composition and properties.

- Chemicals may appear as solids, liquids, gases, vapors fumes, mists or dusts.
- Products used every day can create risk when workers mix, heat, spray, transfer or store them incorrectly.
- Examples at work include fuels, solvents, acids, alkalis, gases, paints, cleaner and treatment chemicals.

CHEMICAL EXPOSURE CAN CAUSE IMMEDIATE OR DELAYED HARM

ACUTE EFFECTS

After a single exposure or over a short period

- Eye or skin burns
- Headache, dizziness or nausea
- Breathing difficulty
- Loss of consciousness
- Allergic reactions

CHRONIC EFFECTS

Developed after repeated exposure, sometimes years later

- Dermatitis or occupational asthma
- Nervous system or organ damage
- Reduced fertility
- Cancer

FOLLOW THE 6 GOLDEN RULE

- KNOW THE CHEMICAL:** Read the label and safety data sheet (SDS).
- WEAR THE RIGHT PPE:** Use appropriate PPE for the task. No PPE, No task.
- USE THE RIGHT CHEMICAL:** Use only approval chemicals for their intended purpose.
- HANDLE WITH CARE:** Avoid spills, splashes and exposure. Do not eat, drink or smoke while handling chemicals.
- STORE SAFETY:** Store chemical in labeled, compatible containers in designated areas, provide ventilation and maintain storage temperature as per SDS.
- BE PREPARED FOR EMERGENCIES:** Know the location of spill kits, eyewash, showers and nearest medical facility. Report all incident immediately.

CHEMICAL HAZARD AFFECT HEALTH, PROPERTY & ENVIRONMENT.

HEALTH

Poisoning, Burns, Irritation, Sensitization, Cancer or Organ Damage

Acute

Chronic

PHYSICAL

Fire, explosion, pressure release, violent reaction or corrosion of metals

Immediate

High energy

ENVIRONMENT

Toxic effects on water, soil, plants and animals

Spill

Persistent

BEFORE YOU START

- Understand the task and associate chemical hazards.
- Review the SDS.
- Inspect containers, labels and work area.
- Ensure required PPE is available and in good condition.
- Verify emergency equipment is accessible.

WHILE WORKING

- Follow procedures and safe work practices.
- Keep container close when not in use.
- Use in well-ventilated area.
- Avoid mixing chemicals unless authorized.
- Clean up spills immediately.
- Report unsafe conditions or incidents.
